1. Name	2. Position	3	4	5	6	7	8	9	10. Previous Record/Other Comments
Lawrence Martinez	Mayor								No response received at this time.
Juliette Parker	Mayor								No response received at this time.
John Pitchford	Mayor								No response received at this time.
John Suthers	Mayor	F	Y	Y	Y	Y	Y	Y	4) I do however believe that the death penalty is an appropriate punishment in limited circumstances involving societal self defense. 10) In always adhering to the law I have assisted the pro life cause in several ways, including protection of Catholic hospitals who refuse to do procedures contrary to Catholic teaching.
Regina English	City Council at Large								No response received at this time.
Tony Gioia	City Council at Large	F	Y	Y	Y	Y	N	Y	7) Though it shouldn't be legal in the first place. 10) I was the executive director of the Arizona Family Project, an organization that lobbied the AZ state legislature on pro-life and pro-family issues, for two years. I am ardently pro-life, including in cases of fetal development disorders and sexual violence that results in pregnancy. Punishing an innocent child, whose life has God-given value, for disabilities or other violence, is not the right answer.
Gordon Klingenschmitt, PhD	City Council at Large	F	Y	Y	Y	Y	Y	Y	10) I've sent over a half-million petitions to Congress for life. I've introduced pro-life legislation in the Colorado State House. I have helped the Personhood movement in several states. I've taken criticism for my pro-life views. I will continue to stand for life.
Terry Martinez	City Council at Large								No response received at this time.
Bill Murray	City Council at Large								No response received at this time.
Athena Roe	City Council at Large	F	Y	Y	Y	Y	Y	Y	6) You should know that the Affordable Care Act supports physician assisted suicide and euthanasia. 9) This is a ridiculous question, doctors have hospital admitting privileges, and even if the doctor performs abortions most are ob/gyns and also deliver babies. 10) I am a very devout Catholic. This issue should not ever been part of politics. True to my teachings, the issue creates hatred not love, but by definition; abortion is murder in the womb.
Val Snider	City Council at Large								No response received at this time.
Dennis Spiker	City Council at Large	E	Y	Y	Y	Y	Y	Y	10) While I am Pro Life, I don't think that government should be in the business of banning all abortions. I think that we should have regulations in place for those who do make the personal choice to have an abortion such as standards of the clinics. I don't think any tax payer money should ever be used to conduct abortions. We need to create a better foster care and adoption systems to stream line the process for those who want to children but have not been able to have the naturally.
Tom Strand	City Council at Large								No response received at this time.
Randy Tuck	City Council at Large								No response received at this time.
Wayne Williams	City Council at Large	F	N	Y	Y	Y	Y	Y	4) I support life, but City Council does not have the ability under law or the role to ensure this protection. 5) I support the Colorado Constitution which prohibits the use of public funds for abortion. 6) It is not the City's role to promote this. 7) Health regulations are designed to protect patients and those protections should be there for everyone. 8) Profit should not be a factor in the decision. 9) In the event of complications, the mother may need admission. 10) I'm adopted and recently had the opportunity to meet each of my birth parents and thank them for the life I have. As a county commissioner I sponsored adoption and sanctity of life resolutions.

**Please note:** These are the responses we received, if any, to surveys sent to the candidates.
